

FOR IMMEDIATE RELEASE: March 9, 2006

David Ray Griffin Speaks About 9/11

Where: Grand Lake Theater, 3200 Grand Avenue, Oakland, CA

When: March 30th, 7:00 p.m.

Prominent Theologian to Present Omitted Facts and Demand a
Full Investigation

Standing by the principle that all suspects in a crime who had the means, motive, and opportunity should be investigated, Dr. Griffin raises disturbing questions and brings to light many omissions and distortions of fact in the official statement of the official account - "The 9/11 Commission Report."

Some of the questions and omissions Griffin addresses:

About 100 times a year jet fighters routinely take to the air in under 20 minutes to investigate aircraft in trouble. On 9/11, nearly two hours passed without any interceptions. Why?

Why did the Twin Towers collapse straight down, totally, and at virtually free-fall speed, given the fact that no steel-frame high-rise building had previously collapsed because of fire and externally caused damage?

Why did many witnesses, including many firefighters, report hearing explosions before and during the collapses of the towers?

Why did World Trade Center Building 7, a 47-story steel-frame skyscraper located over a block away from the Twin Towers, collapse, even though it was not hit by a plane and had only a few small fires?

Why did the final report of the 9/11 Commission not even mention the collapse of Building 7? Please join us to hear Dr. Griffin's lecture, "9/11: The Myth and the Reality."
